

## SUFFRAGE LEAGUE FORMED TO SECURE VOTE IN DISTRICT

Active Publicity Campaign  
Will Be Carried on by  
New Society.

Proposing to put up a strong fight for suffrage in the District, the District of Columbia Suffrage League was organized yesterday. The organization of the league was the result of quiet work that has been going on for some time by Dr. Thomas E. Will and others interested in the movement, and the interest shown at the opening meeting was said to be encouraging to the promoters. The meeting was held in Dr. Will's office, 809 G street. An executive committee was chosen, composed of Dr. Will, Roscoe Jenkins, of the Treasury Department, who was also elected treasurer; Mrs. Jennie L. Monroe, of the Land Office; H. O. Skinner and Louis Kopell. Other persons at the meeting were W. G. McKenzle, of the War Department; E. J. Dakin, the industrial educator, and E. W. Oyster, who has been a worker for District suffrage for many years.

Dr. Will, who will have active charge of the work, plans to begin a vigorous campaign among the citizens' associations as soon as these bodies resume their sessions.

**Plan Mass Meeting.**

Meanwhile a meeting will soon be called to re-enlist the old workers and interest others who sympathize with the movement for District home rule. This meeting will be followed, it is said, by large mass meetings and other public demonstrations.

The new league plans first to demand home rule. According to Dr. Will, there are a great many people in the District who do not approve the present method of appointing the Commissioners and who are in favor of having them elected by the people, just as they are in every other city in America.

"The time is now ripe," said Dr. Will, "for pushing District suffrage to the limit. The people of the District are entitled to self-government. Their political rights were taken away from them in 1874 without their consent, and they have never given their consent."

**Sentiment Different Now.**

"The state of public sentiment is now widely different from the time when other attempts for District suffrage were made. The widespread demand for popular government, for the overthrow of bosses, for the direct primary, popular election of Senators, initiative, referendum, recall—all show that a new era is upon us."

The league plans to work chiefly, for the present, through publicity, and bulletins will be sent to progressive papers all over the United States, appealing to the people to bring pressure on Congress to "annex the District of Columbia to the United States."

Dr. Will thinks objections to home rule for the District because of the "exclusive legislation" clause in the Constitution, or because of the large percentage of colored men in the District, or because of the "half-and-half" system of taxation, are unsound, and

## DISTRICT SUFFRAGE BILL IS INTRODUCED

**Home Rule Comes First.**

After home rule has been accomplished, and not before, Dr. Will thinks the league should turn its attention to District representation in Congress. Home rule is, in his opinion, more important at present than representation in the national assembly.

Another impetus to the District representation was the strong stand taken in favor of it at the Progressive mass meeting in Armory Hall Friday night. Roy C. Clavin, chairman of the committee on laws and legislation of one of the leading citizens' associations, has worked constantly for more than a year on the propaganda. The proposition was given an emphatic endorsement at the mass meeting.

**Concert By Turnverein.**

A varied program will be given by the Columbia Turnverein at its concert tonight at 928 M street northwest. Selections by Strauss, Sousa, Schuman, Mendelssohn, and Leo Fall are on the list.

The bill will be taken up at the beginning of the second session of the sixty-second Congress in December. It is provided that the first election shall occur sixty days after the passage of the bill.

**German Turbine Cruiser  
Has Speed of 28.4 Knots**

KIEL, Aug. 25.—The new turbine cruiser Goeben has returned from Danzig bay from her steaming trials. Under forced draft she maintained a maximum speed for several hours of 28.4 knots, which exceeded the contract.

The speed is considered remarkable as the official design was altered by the addition of a stability keel to prevent rolling.

**Opposes Cock Fighting.**

A bill to prevent cock fighting or the setting of other animals at combat in the District was introduced in the House yesterday afternoon by Congressman Johnson, chairman of the District Committee. A fine of not to exceed \$10 or imprisonment not exceeding twenty-nine days is provided.

**Victims of Accident  
At Station Recovering**

Arthur Nalls, of Sixth street and Pennsylvania avenue southeast, and Paul Ward, of Rossmore, Va., the two express company employees who were operating an auto truck when it was struck by the Buffalo Express, of the Pennsylvania railroad, in the Washington terminal yard last night, are both doing well this morning, and will probably recover. Ward is sitting up this morning. His principal injury is a badly mangled foot. Nalls is suffering from cuts and bruises on the head and body and from shock.

A rally of Democrats of the Dronesville district, Virginia, was held at Herndon Friday night. Kyle B. Price, of Alabama, and F. C. Oberlin spoke. The speakers both praised in warm terms the Democratic Presidential ticket. The next meeting of the Dronesville Democrats will be held September 6.

**Millions Wasted  
IN EGG BUSINESS**

Improper Handling Responsible for Huge Annual Loss, Says Report.

Improper handling of eggs is responsible for an annual loss of the huge sum of \$45,000,000, according to a Department of Agriculture experts who have been investigating the egg-smashing business. This enormous loss is due to small eggs, cracked and broken eggs, dirty, stale and rotten eggs. The improper handling is a loss to farmers, middlemen and consumers alike, say the experts, and they urge everybody to get busy and institute reforms which will do away with it. Here are some of the plans suggested for betterment: Encourage the production of large eggs. Take steps to insure proper disposal

of infertile eggs. Dirty eggs will be reduced to a minimum if proper care of nests is taken.

More than 10 per cent of eggs received in New York during the year are stale. This is not necessary if eggs are promptly collected and expeditiously shipped to market.

## DISTRICT SUFFRAGE BILL IS INTRODUCED

Congressman Curry Presents  
Measure Urged at Progressive Rally Friday.

Congressman George Curry, of New Mexico, introduced in the House yesterday the identical bill for suffrage in the District of Columbia which Frank Hogan, Progressive national committee man, produced at the Progressive rally at National Armory Friday night.

This bill provides the District shall have a Representative in Congress who may talk but not vote. The right of suffrage is given both sexes. Those persons twenty-one years of age who have resided in the District at least three months prior to the first election are to be entitled to vote.

The bill will be taken up at the beginning of the second session of the sixty-second Congress in December. It is provided that the first election shall occur sixty days after the passage of the bill.
